Plan Participants:

MAPFRE Life Insurance Company of Puerto Rico provides you a prescription benefit program administered by MC-Rx.

Your prescription benefit has a wide selection of drugs. MC-Rx's Pharmacy and Therapeutics Committee has the responsibility of assessing drugs for which you have coverage. This committee is composed of physicians and pharmacists who meet periodically to evaluate new therapies and determine the needs to recommend strategies for cost containment. Committee's members take into consideration clinical literature to evaluate the safety and cost-effectiveness of drugs.

It is important to comply with this formulary list to ensure improvement of qualiy of care and control health care costs.

Ask your physician to consider prescribing, when medically appropriate, a medication from ***MAPFRE Life Insurance Company of Puerto Rico's Select Close Formulary List***. This list can be used by your physician to cross reference.

This Formulary List is a guide. It is not a comprehensive list of prescription drugs that are on formulary.

- Not all the drugs listed are covered by all prescription drug benefit programs; check your benefit materials for the specific drugs covered and the co-payments for your prescription drug benefit program.
- Inclusion on the list doesn't guarantee coverage.
- Brand-name drugs may move to a higher co-pay level if a generic version becomes available during the year.

Generics should be considered the first line of prescribing. If there is no generic available, there may be more than one brand name medication to treat your condition. The preferred brand name medications are listed to help identify products that are clinically appropriate and cost-effective.

Brand products are represented in CAPITALIZED letters, while generic products are represented in lower case. Preferred products are represented in **BOLDED** letters. Products that fall under more than one category are represented with a combination of the respective formats.

For specific questions about your coverage, please call the phone number printed on your member ID card.

Esta Lista de Formulario es una guía. No es una lista comprensiva de los medicamentos que están en formulario.

Los nombres de los medicamentos de marca preferidos se enumeran para ayudar a identificar los productos que son clínicamente apropiados y costo efectivos.

Los productos de marca se representan en letras MAYÚSCULAS, mientras que los productos genéricos se representan en minúsculas. Los productos preferidos están representados en letras **ENNEGRECIDAS**. Los productos que pertenecen a más de una categoría se representan con una combinación de sus respectivos formatos.
